Working with editing templates & add-ons

H2GY1K

LECTURE SUMMARY

Covered in this lecture:

Using templates to save time

- Templates are a quick way to make something look good without a lot of effort
- However, some of them are overused and can be easily recognized
- **Types of templates you can use:**
  - intro titles / bumpers
  - lower third text
  - slideshows - series of pictures or videos
- **Where to find templates:**
  - motionarray.com
  - rampantdesigntools.com
  - motionvfx.com
  - themeforest.net
  - envato.com
- If you find a template you like but you want to slightly modify it to fit your brand and style, hire someone from Fiverr to do it for you
